

# Milk Art

## Materials:

- Liquid Dish Soap
- Milk (2% or higher)
- Plate
- Food Coloring
- Paper Towel or Coffee Filters

## What You Do:

Fill the plate with a thin layer of milk. Next, put in drops of food coloring

Add a few drops of dish soap into the center of the food coloring, sit back, and watch!

The milk fat instantly reacts to the soap, creating art!

Take pictures & frame them, or use paper towel/coffee filters over top to keep the artwork
